

## My Property Directory

When moving home it's always helpful to have a list to hand of reliable trades-people or professionals who you've used in the past who can help you out with those small or large jobs that come up along the way.

Often the problem is you can't recall their name and you may have had their details on a scrap of paper given to you by a friend.

We've set out a small chart for you to fill in with your preferred trades-people so that they are kept in one neat easy-to-find-place.

Alternatively if you are new to the area give one of our offices a call and we will happily recommend someone to you based upon our own experiences.
